**DIANA, MEKDSZ HUNGARY**

---

Pray that God would show me the place where I should settle down and that he would give me a community there. Pray that God would give me Christian friends, and that people would generally be more accepting of Christians.

We are planning to set up a postgraduate student group at Durham University in the next few months. God is really moving in Durham, but much prayer is needed. Please pray for opportunities, and that through us God would establish a group of postgraduate students here who love him and love to proclaim his gospel, for his glory.

Pray for Christian students to see the need to be harvest workers, and that they would have courage to do so in a culture that is increasingly focused on individual truth. The idea that Jesus is the way, the truth, and the life (John 14:6) can be offensive. Pray that God would provide opportunities for non-Christian students in Durham to hear and respond to the good news of Jesus. It feels like a lot of students are hard of heart. Pray that students would see that what they are really searching for post-pandemic is Jesus.

Please pray that we can begin meeting at the Medical University Campus in Vienna, reaching out to our friends to show them the love of Christ. Pray that we can show them that there is no conflict between science/medicine and being a Christian. Pray that all of us would balance the ministry with our medical studies well.

---

Please pray with us for unity amongst Christians, and openness in local churches. We have the opportunity of a truly vast mission field; but the work is made difficult by disunity and very few Christians to serve in the ministry. Please pray for workers in the harvest field (Matthew 9:38) who love the Lord and work well together.

### **DASHA, CCX UKRAINE**

---

Please pray for the war to end in Ukraine. We are waiting for a miracle from the Lord. We want to live in peace and security. Please pray for the safety of team members and their families, some of whom are still in occupied territories.

Please lift in prayer the team in Odessa; one staff worker, one face-to-face volunteer, one remote volunteer, and two active believing students. Although Odessa is close to the front and under the guns of warships, we pray for new active students and volunteers. We also need financial assistance for offline meetings and room rental.

Please pray for students of Ukraine. During the war, students continue to study no matter what. Many universities have been destroyed by bombs, and students have ended up in other cities and countries. Many are depressed or forced to start all over again.

Please support with prayers those of us serving medical students in Odessa. In September, weekly meetings started. We met three new students who went abroad but continue their studies in Odessa online. Pray that even in war, we can bring them the hope of Jesus.

Please pray that God would show me how he wants to use my life, strengthening me and giving me courage to speak, to sing, to be strong in the Lord. Pray for my family, my church, and that more people in my country would come to know God and start working for him. Pray that our youth group would be lights for the people in our lives.

### **AMARA, UCCF GREAT BRITAIN**

---

Please pray with us for growth in our student group, that we would do more to show love to those on our campus, and that we would have effective and impactful follow up after our events. We have a lot of students from international backgrounds to reach. We have quite a lot of students who commute and postgrads who are more difficult to cater for. Pray that the Lord would enable us to reach them faithfully.

We are only a very small group of Christians studying in St Pölten, and the student group here will probably stop existing soon. Please pray that a new group will arise, even some years into the future. Pray that God will raise up more students who want to serve Jesus in sharing his gospel at the university here. Pray as well for the non-Christians who have been in contact with the student group in the last years - that God will finally open their eyes and renew their hearts. Please pray that God would renew the work here.

Thank God for the heart GBU Belgium students have for the lost. Pray that, as they are moved by God's love for sinners, they would proactively and dependently seek many opportunities to concretely reach out with the gospel during this new academic year.

Pray that even with a lack of indigenous staff, the Lord would bring many Francophone students to himself.

Please pray that our student groups become places where God's love is visible. We want to have deep Bible studies and apply what we learn to our everyday life, as well as providing a place where we see non-Christians meet Jesus and become aware of his love for them.

Pray that we stay so faithful to God in all our decisions, words, and actions, that our friends have a chance to meet him as they look at our life with him. Our universities are closed to public evangelism. Pray that we will have initiative, time, energy, and good ideas for how to reach out to our friends at university.

---

Pray for the movement as we have transitions in our staff team. Pray that Christian students would have confidence to talk about Jesus with their friends, and that our international students would encourage Slovene students to live for Christ.

Burnout is so common among both students and staff as we try to serve well. Pray for renewal. Pray that the love Jesus would be seen as we create community for international students.

Pray that the Holy Spirit would give our students the desire to gather, participate, and engage in the mission of reaching out to students at our university. Even though they are Christians, many lack the desire to gather with other believers, and many other things in their lives are exalted over Christ. Pray that their affections would be transformed.

### **BCSU VARNA, BULGARIA**

---

You can pray that our team of student leaders stays faithful in leading the student groups in our city. We want to see more students meet Jesus through our events and Bible studies. Pray that more students grow in their faith and witness and that we would be a good example for Christlikeness. We want to see our friends become curious and interested in Christ as they see our abundant life in him. Studies are always a challenge and can easily become our priority, but we want to put God first and then see fruit from our trust in him – in both our studies and our witness in the university.

In Italian universities we need a great awakening. Many students are atheists or very, very religious because of Catholicism. We ask for prayer for a revival in Christian students who are already in the GBU. We would like to see more people that are curious participating in our meetings, and we'd like also to begin work in other universities in Milan.

---

It's difficult to talk about God with our friends in a strongly atheistic and relativistic context. Although in our university we have the opportunity to get to know a lot of students from different backgrounds and learn about their culture and traditions, a big challenge is that many students don't seem to be interested in any type of faith. Pray that they would become open to the gospel.

Pray that more Christian students will see their university as a mission field, and that this coming academic year each group will reach out to their friends with the gospel of Jesus with boldness and confidence in truth.

There are only 7% evangelical students, and many are shy to declare they are Christians. The challenge is to find gospel-hearted students to pray with.

## EUROPE

---

Pray for the FEUER network that will be gathering from 27-30 October. 200 university evangelists from across Europe will gather to learn together how to proclaim the gospel on campus, sharing stories and examples of how they have creatively done so over the last year.

Praise God for the way FEUER has been a catalyst to many university mission weeks across Europe over the last 13 years. Pray that each delegate at the gathering would be renewed in their passion to proclaim Christ and that Europe would be renewed by the gospel as a result.
