

DAILY PRAYER GUIDE

OCTOBER-DECEMBER 2026

DEAR FRIENDS

Collaboration, sharing and fellowship - a huge part of IFES. The General Secretary of OPKO Finland was in Burkina Faso in August to speak at UGBB's national conference. Student leaders from across the Andes subregion in Latin America encouraged each other to live for Christ at a training conference. The FEUER network of evangelists resources outreaches called events weeks held across Europe. IFES Engaging the University eLearning program helps students bring their faith not just to a Christian group meeting, but into their lectures and research, into their interactions with university authorities – learning from each other about what that looks like in other movements. Even where challenging contexts mean that direct help is not possible, movements know that they are being prayed for - like MUEVE Venezuela celebrating their national conference in August. **This year, for World Student Day on 8 October, let's lift up our eyes and stand together in prayer!**
